Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This is the 9th Office action, and the status of current claims are as follows:
Claims 1-11, 21-25, 27, 28, 31-47, 49, 52, 56, 59, and 61 have been cancelled by applicant. Claims 12-20 stands withdrawn. Claims 26, 29, 30, 48, 50, 51, 53-55, 57, 58, and 60 are pending.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claims 26, 29, 30, 48, 50, 51, 53-55, 57, 58, and 60 are rejected under 35 U.S.C. 102(b) as being anticipated by Zarnick (US patent no. 5,816,016). Zarnick discloses a hanger (capable of being a tire hanger) made of rigid material comprising a device configured to removably engage a horizontal support member (21), the device having 1st U-shaped end (18) circumscribing the horizontal member with a hook and a second hook configuration (see illustration below) capable of suspending wheel in vertical orientation (see orientation of element 24); and a middle section (29) with pivotable joint formed from overlapping parts having a length suitable for engaging the hook configuration with the wheel wherein the weight bearing upon the second end is conveyed through the middle section to the first end to secure the first end on the horizontal support.

Claims 58 and 60 are rejected under 35 U.S.C. 102(b) as being anticipated by Starling et al (WO 00/55031). Starling discloses a tire hanger (120, figure 4) comprising a hoist wrap section (128) having open end (between the outer pair bolts 136 are opened spaces) arranged to be removably engage with at least three sides (such as adjacent 130, 132, inner pair of bolts 136 which form three sides) of a horizontal support member (26, figure 5) of a vehicle hoist (22, figure 5); a tire hanging section (154) arranged to engage a wheel; and a middle section (150, 156, figure 4) disposed between the hoist wrap section and the tire hanging section, whereby the hoist wrap section is shaped so as to contact and slidably engage the three sides of the horizontal support member. Further, Starling's hoist wrap is inherently can be slidably positionable along the horizontal support member at a user-selected a location when the nuts are

loosened; regarding claim 58 wherein the tire hanging section (154) is a straight member of sufficient length to hold a tire.

Response to Arguments

Applicant's arguments filed March 8, 2007 have been fully considered but they are not persuasive. As best understood, it appears applicant is not claiming nor intends to claim the hoist, tire, wheel or horizontal member in combination with the support as evidenced in applicant's previously filed remarks. Applicant's argument filed March 8, 2007 that the device of Zarnick is not configured for mounting onto a vehicle hoist as the because Zarnick's U-shaped first end is too narrow to mount a horizontal member of a hoist is not persuasive. Examiner is not aware that a horizontal member of a vehicle hoist has fixed set of shape. Indeed, horizontal member on a hoists can be of a variety of shapes.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
